

Your pleasure, our taste!

We bring the best of Mediterranean tradition to tables around the world, always guaranteeing quality, safety, and a distinctive taste.

We are a solid industrial company specializing in sweet and savory snack production since 1976. Born from a small bakery in the heart of Matera, we carry forward our mission to promote the culture of good Italian food around the world, through simple, genuine, and authentic products.

We create snacks with a fresh, natural taste, free from added preservatives, and retaining all the traditional artisanal flavor. Our family recipes and carefully selected ingredients allow us to offer a handcrafted production style, supported by advanced 4.0 technologies.

We are strongly export-oriented, with over 90% of our production destined for foreign markets, confirming the significant international recognition our products have achieved.
